ÜRETİM

1986 yılında İstanbul Bayrampaşa’da küçük bir atölyede başlayan serüvenimiz çeyrek asrı aşkın tecrübesi ile plastik saksı üretiminde istisiaslaşmıştır. 1999 yılında “Serinova Plastik Sanayi ve Dış Ticaret Limited Şirketi” kurulmuş yeni bir isimle yola devam edilme kararı alınmıştır. “İki günü birbirine eşit olan zarardadır” Hadisini kendine şiar edinen Serinova Plastik hem makine parkurunu sürekli yenilemiş ve artırmış; hem de Ar-Ge çalışmaları ile sektörün ihtiyaçlarına uygun kalıplarla ürün gamını artırmıştır. Firmamız, ülkemizde sürekli büyüyen ve bacasız sanayi olmasının yanında iyi bir istihdam sahası oluşturan süs bitkisi ve fidan üretiminin ana malzemelerinden olan plastik saksı imalatında Türkiye’nin tartışmasız en büyük firmasıdır. Bitki yetiştiriciliğinde saksı çok önemlidir ve kaliteli bitki yetiştirmek için kaliteli ve uygun saksıların kullanılması gerekmektedir. Firmamız, bitkilerin form ve kök yapısına uygun saksı kullanılabilmesi için aynı hacme sahip olan farklı ölçülerde saksılar imal etmektedir. Serinova Plastik kaliteden taviz vermeden üretimi artırma yönünde çalışmalar yapmaktadır. Hem kaliteli hem de sektörün ihtiyaçlarına göre daha hesaplı maddeler için saha araştırmaları yapılmakta yapılan istişareler neticesinde üretici firmaların ihtiyacına uygun saksılar üretilmektedir.

Our adventure which started in 1986 in a small workshop in Bayrampaşa, Istanbul has been exceptional in plastic pot production with its experience of more than a quarter century. In 1999, Serinova Plastic Industry and Foreign Trade Limited Company was established, and it was decided to continue with a new name. Our motto, slogan is the famous tradition, “One is in the red if one’s two days are equal to each other” Serinova Plastik, who has made his point on himself, constantly renewed and increased his machinery; as well as R & D studies, it has increased its product range with molds suitable for the needs of the sector. Our company is Turkey’s undisputed largest company in the manufacture of plastic pots. Flower pots are very important in plant breeding and quality and suitable pots should be used for growing high quality plants. Our company manufactures pots of different sizes with the same volume for the use of the flower pots suitable for the form and root structure of the plants. Serinova Plastik works to increase production without compromising on quality. Field researches are carried out for the products that are more expensive both in terms of quality and according to the needs of the sector and as a result of the consultations made, pots suitable for the needs of the producers are produced.
